## Houston Johnson Inc. Re-Roof Project

Re-Roofs / MR-24 Metal

### Square Feet

6,000 s.f. Re-Roof

### Project Location

13200 Complete Court, Louisville, KY 40223

### Construction Dates

12-18-2015 thru 5-2016

### End User

Distribution

## Property Details

6,000 s.f. of new pitched roof to redirect water to circumvent a valley gutter situation. LichteFeld, Inc. designed a re-roof section keeping the same pitch of the current roof turning a double-slope roof into a single-sloped roof. The photos here will tell it all. You'll see that we added a light gauge framing structure to the existing roof and created a single-sloped condition against a new building addition also designed and built by LichteFeld, Inc.
